

# Information about the New Progress Report

The new Progress Report will be used this school year. It may be downloaded from our Website for your review.

## ***Why is the Progress Report valuable to you? How does it help your child?***

"The change to a Standards-Based reporting system comes from the belief that our previous report card and reporting system did not fully communicate what students are expected to know and be able to do, as set forth in the state and national standards."

"This new reporting system will benefit students, teachers, and families."

"It will allow students to be more aware of what is expected of them."

"It will provide families with a more detailed outline of the expectations in each of the major academic areas."

At Vintage, on September 8, 2018 @ 8:30 a.m. in the Auditorium, we will provide information about the New Progress Report.

In addition, the district has created an Online E-Learning Course for Parents. This e-learning course is designed for you to understand the new progress report, the reason for the change, and the history of its development.
